Our ATR Lat Pull Down uses a 1:1 ratio on a 200, 250 or 300 LBS Weight Stack, a Fixed Low Pulley can be added with two 1" bolts to add low row/pulley functionality. As the unit is made out of 3x3" tubing with 1" holes and the knee hold and seat are removable you can use attachments on this unit as well, making it much more than a lat pull down station.
